OIL & ENERGY CONSULTING

## OIL CONSULTING SPECIALISTS

Go4 Oil & Energy Consulting (Go4) is an independent international oil consulting company based in Europe, Russia and Asia; with focus on the provision of integrated technical studies covering the downstream sectors of the international and local oil industry.

For more than twenty years, Go4 has been providing services to numerous clients including international oil companies and national Governments. Go4 is consistently praised for the quality of work and the success in meeting tight project schedules, working within the budget and supplying high quality reports.

Go4 works in every region of the world and has currently carried out projects in more than 15 countries around the world.

Go4 provides oil consulting services from Europe and Asia with easy access to countries throughout the world.

The continuing rapid growth in demand for oil products has resulted in a significant increase in the range and volume of oil consulting services that we provide. More details of these consulting services can be found in this pamphlet or on the web site [www.cbi.dk](http://www.cbi.dk).

# From Tank to Manifold

Go4 analysts combine industry expertise, dynamic modeling skills and sector experience to assess the global and regional trends in processing and marketing, and the linkages to the strategies and corporate performance of the industry.

Consultants assist clients in understanding long-term market scenarios and designing robust strategies to exploit opportunities and manage competitive pressures.

Combining a rigorous understanding of the technical factors impacting performance with an in-depth analysis of regional markets and strategies, we provide clients with a tailored, comprehensive downstream advisory service.

Go4 cover all aspects of the downstream oil value chain, from storage tank facilities to pipelines and transport including setting up distribution of Marine Fuel Oil.

Go4 work with corporate executives to assess concrete projects, new investments, capacity expansion, acquisitions and divestments set within an overall

downstream strategy.

Go4 work closely with our clients to find effective ways of improving their business to provide solutions that build on enhanced, long term capabilities and relationships.

Go4 provides expertise which is extremely relevant to today's downstream players, including:

- Global and regional refining and marketing strategies
- Trends in Fuel Oil activity and margins
- Global and regional supply and demand patterns
- Developing regional markets and competitive opportunities
- Company performance measurement

Go4 Oil & Energy Consulting offers advisory and consulting services to meet the needs of clients.

## In depth sector knowledge

The focus of Go4 support is to optimise business performance.

This is achieved by helping clients to move successfully into new sectors, countries or regions and /or by helping them to improve performance.

The Go4 team is made up of highly experienced, industry professionals with a strong track record of delivering incremental value and process improvement.

Go4 has experience of operating in the downstream industry across major markets around the Globe.

# Company Profile

Go4 Oil & Energy Consulting (Go4) is an independent consulting company specialising in oil development activities.

The Company has a proven track record of more than 30 years and has been building a solid reputation in oil development.

For decades the Go4 team has carried out numerous oil projects in more than 15 countries in all the corners of the World.

Straightforward performance, in depth knowledge and field experience are key elements of the success Go4 has obtained over the years.

Go4 is one of the few oil consulting companies working in the downstream part of the oil industry. Go4 carries out comprehensive Market Research, Feasibility Studies and Business- and Implementation Plans. However in addition we have detailed practical experience of international regulatory practice in the oil and gas industry.

Go4 clients include international oil companies and national governments; in places such as the Baltic, Russia, Middle East, Africa, Caribbean and Asia.

Go4 is a Member of

THE INTERNATIONAL BUNKER  
INDUSTRY ASSOCIATION
